Review decisions before adoption

Confirm the legal seller name, physical address, dealer license, email, website and logo. The outlined logo box is a placeholder, not your actual logo. The telephone shown is 612-724-3631. All seller-name blanks remain to be completed.

Counsel must approve arbitration administration and enrollment, title-office acceptance of the limited power of attorney, warranty eligibility, GPS provider and privacy practices, and financing terms. This package is a printable review draft, not a certified Minnesota form set or a functioning credit-calculation engine.

The existing purchase terms keep deposits refundable before delivery. Financing draft policy: fixed-rate daily simple interest, no late fee, no returned-payment fee, no prepayment penalty. These are proposed policies, not assumptions about your current practices.

Do not sign both warranty and As Is forms for the same dealer coverage. Use the official odometer/title forms required for the transaction; this package does not replace secure odometer powers of attorney. Electronic delivery consent, credit reporting notices, privacy notices and optional-product contracts may also be needed.

Title Transfer & Source Notes

Official-form reference | Review before adopting the packet

REVIEW DRAFT - NOT APPROVED FOR CUSTOMER SIGNING

PS2000A included - revision disclosure

The following two pages are the unaltered PS2000A-50 (01/2024) official form currently linked in the Forms section of Minnesota License Minnesota. They are included for layout and workflow review. A newer PS2000A-51 (05/2026) is indexed at the DVS asset address, but that download returned HTTP 403 in this session. The included reference is not represented as the newest available revision.

Before filing: obtain the latest accepted PS2000A from DVS or your deputy registrar, verify all current tax and fee figures, and replace the reference copy. Do not change the printed state form or assume that this packet alone transfers title.
